31 October 1956

MEMORANDUM FOR: Mr. H. Gates Lloyd  
Assistant Deputy Director (Support)

SUBJECT: Installation of 801-Type Telephones

25X1A9a

1. On 26 October, Mr. [REDACTED] of OCSSD provided me with the attached status report on 801 telephone installations. Mr. [REDACTED] asked that his office be advised on the priority of installation for an additional five phones which would bring the total number of phones in the Agency to twenty. 25X1A9a

2. I have conferred with General Cabell on the question raised by Mr. [REDACTED] on whether one instrument could be reserved in the event of an emergency. General Cabell ruled that all twenty instruments should be installed for use and that in the event of the need to replace an instrument due to malfunction or other reasons, the replacement instrument would be taken from that office having the least priority on the list. I have noted that the attached status report generally complies with the 23 September 1955 memorandum from Mr. [REDACTED], which was approved by the DDCI and which has the concurrence of AD/S, DD/P and DD/I, except for the following changes: 25X1A9a

a. The phone scheduled for the AD/ER will be provided instead to the AD/SI.

b. Phones presently located with the Director of Logistics and Director of OCSSD will be relocated to Area Divisions, DD/P.

3. Per our conversation, it is suggested the list be allowed to stand as presented with the changes indicated in the foregoing paragraph, and that the instrument in the Comptroller's Office be used in the event of a contingency requiring replacement of another instrument.

4. I have been in touch with Mr. [REDACTED] with regard to the DD/P need for these phones and he has indicated a desire to have 801 phones also installed in the offices of C/FI, C/GI and C/PP. 25X1A9a

5. Unless some major change in the arrangements for installation of the 801 phones requires the DDCI's attention, this memorandum transfers follow-through action, per our conversation, to your Office.
